PROFILE SUMMARY

IT professional with hands-on experience across the full software development lifecycle, including web and mobile application development, database design, API development, and cloud deployment. Skilled in JavaScript/TypeScript, modern frontend and backend frameworks, and DevOps practices such as containerization and CI/CD automation. Adaptable, detail-oriented, and comfortable working across roles that require strong problem-solving, collaboration, and technical communication.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), TypeScript
Frontend	React.js, Next.js, Tailwind CSS, Material UI (MUI), Shadcn/ui
Backend	Node.js, Express.js, NestJS, REST APIs, JWT, WebSockets
Databases & ORMs	MongoDB, PostgreSQL, Prisma ORM, Mongoose ODM
DevOps & Cloud	Docker, GitHub Actions (CI/CD), AWS EC2, Load Balancer (ELB), Vercel, Netlify
Storage & Media	Amazon S3, Cloudinary
Tools & Testing	Git, GitHub, Postman, Jest
General IT	Troubleshooting, Documentation, Agile/Scrum basics, Technical Support

WORK EXPERIENCE

Software Engineer – MERN Stack **STL, ZA IT PARK** Feb 2026 – Jun 2026

- **Bootcamp Tracker** – built an employee attendance and KPI tracking dashboard with role-based access using React.js, Node.js, and MongoDB.
- **Meeting Mind (AI)** – built a real-time meeting assistant using OpenAI APIs and WebSockets to auto-generate summaries and assign tasks.
- **Document Hub** – built a secure document sharing platform with real-time collaboration, document indexing, and role-based access control (RBAC).
- **LiveStock App** – built a marketplace mobile app with Cloudinary image optimisation and high-performance search filters.
- **DevOps:** containerized services with Docker and deployed to AWS EC2 via GitHub Actions CI/CD pipelines.

Software Engineer Intern **Auspify Technologies** [Month Year] – [Month Year]

- **School Management System (ERP)** – built a full-featured ERP application for schools using React.js, Express.js, and PostgreSQL, covering students, staff, attendance, and academic records.
- **Background job processing:** implemented BullMQ with Redis to handle asynchronous tasks such as notifications and report generation.
- **API development:** built and integrated RESTful APIs using Express.js for real-time data flow between frontend and backend.

PROJECTS

Fintech – SBP Fraud Reporting React.js, Node.js, MongoDB, PostgreSQL, JWT 2026
Fraud and scam reporting platform for the State Bank of Pakistan. Multi-bank data aggregation with RBAC and compliance report generation.

Bootcamp Tracker React.js, Node.js, Express.js, MongoDB, JWT, Cloudinary 2025
Employee management system with attendance tracking and role-based dashboards. Deployed on Vercel and Render.

Portfolio Next.js 16, TypeScript, Tailwind CSS, Vercel 2025
Personal portfolio with SSR and App Router. 95+ Lighthouse score. Deployed on Vercel.

EDUCATION

Web & App Development	Saylani Institute (SMIT)	2024 – 2025
Intermediate in Computer Science	Superior Science College	2022 – 2024
Matriculation (Science)	Ideal English Grammar School	2022

CERTIFICATIONS & LANGUAGES

Certifications	• Web & App Development – Saylani Mass IT Training Program (SMIT) • Responsive Web Design Certification – FreeCodeCamp • JavaScript Algorithms & Data Structures Certification – FreeCodeCamp	
Languages	English (Professional), Urdu (Native)
